

While I'm sure that most of us have heard enough speculation of a Kerry/McCain ticket, here is some more kindling for the fire (or is that pyre...).

Maverick McCain rips GOP (Noelle Straub, Boston Herald):

Kerry's veep choice Gut-check time (Mark Shields, CNN):

And I think we should have a pool: How long does it take for the commerce department to announce (quietly) that the 308,000 new jobs in march number is an over-statement??? Whoever guesses closest gets a Bush/Cheney-04 bumper sticker.
